

SHAHID BEHESHTI UNIVERSITY

KAZAN FEDERAL UNIVERSITY

**Scientific Collaboration Agreement  
between  
Kazan Federal University, Russia  
and  
Shahid Beheshti University, Iran**

Faculty of Physics at Shahid Beheshti University (hereinafter called “**Department**”) and the Institute of Physics at Kazan Federal University (hereinafter called “**Institute**”):

Recognizing that: The scientific collaboration via joint research programs, to hold common international scientific workshops, schools and courses, resulting in improving the quality and quantity of scientific achievements:

**Have already agreed as follows:**

1. Distinguished scientists of Institute and Department who are active in various fields of researches related to physics can visit the other sides. The date and periods of such visits are determined under negotiations of the both sides.
2. Every year, around 10 PhD students involving in researches, e.g. fundamental physics, applied physics and multidisciplinary fields at Department, can visit Institute for a period of maximum 1-year. The selection of PhD students for such visits will be specified by Department in consultation with Institute. In order to get the permission and arranging administrative procedures, director of Department introduces eligible students to Institute. The candidates should send their applications to a relevant scientific supervisor at Institute for approval.
3. There is an opportunity provided by Institute for distinguished scientists of Department as well as Institute to attend in some scientific activities held in the other side as participant and/or invited speaker. The candidates should send their applications to director of the corresponding institute for further arrangements, final approval and the other administrative procedures.
4. As, there are some scientific summer schools held at Institute, according to this agreement, Institute facilitate participation for the eligible undergraduate students of Department to attend in these mentioned schools. The selection of undergraduate students for such visits will be specified by Department in consultation with Institute. In order to get the permission and arrange administrative procedures, head of Department introduces eligible students to Institute.
5. To make more improvement in quality and quantity of scientific researches in Department and Institute, it is possible to use experimental facilities of the both sides under supervision of the laboratory supervisor. Any probable expenses of such collaborations undertaken in relation to this agreement are financed on cost-sharing basis.
6. In order to join common scientific activities in Department and Institute with industries, the accepted proposals for industries are financially supported by Institute.
7. The expenses of all mentioned visits undertaken in relation to this agreement are financed on a cost-sharing basis. Institute contributes toward the travel expenses of scientists as much as possible and also covers the local and housing expenses. The amount of financial supports

## SHAHID BEHESHTI UNIVERSITY

## KAZAN FEDERAL UNIVERSITY

depends on the available budget represented by Institute. Any other parts of expenses are supported by the research deputy affair of Shahid Beheshti University.

8. The present Agreement will come into effect on the date of signature by both Parties and will have duration of five years, subject to an extension upon mutual agreement and review by the both Parties.
9. This Agreement will be presented in three written originals in English, Russian and Persian, one for the both Party, each of them has the same force.
